Deputy Secretary to Government.

No. 94.—The following resolution of the Government of India is republished:—

FINANCE DEPARTMENT.

India, the 19th August 1929.

[General principles applicable to contracts involving expenditure from the central revenues.]

No. F. 12-XII-56, 11/27.—The Government General in Council has had under consideration the question of regulating the powers of subordinate authorities to enter into contracts or agreements involving expenditure from the central revenues. Detailed rules exist on the subject in the various departmental orders, and orders have also issued from time to time defining the powers of various establishments in such matters. From what had been done in the notice of the Government-General in Council, it would appear that the principles underlying these rules have not invariably been observed in practice. The Central Public Accounts Committee drew attention to the question in paragraph 48 of their report on the Appropriation Accounts for 1923-24, and again in paragraphs 18, 12 and 27 respectively of their reports on the Appropriation Accounts for 1924-25, 1925-26 and 1926-27, and the matter was briefly dealt with in paragraph 27, 16 and 2 respectively of the Finance Departmental Regulations No. II (1929 A), dated the 1st June 1929, D.11434, dated the 25th May 1929 and D.11487-A, dated the 27th May 1929. The Government-General in Council resolves that the general principles underlying the departmental rules and orders should be reviewed in a comprehensive form. It is accordingly pleased to announce the following fundamental principles for the guidance of

authorities who have to enter into contracts or agreements:—

(1) The terms of a contract must be precise and definite, and there must be no room for ambiguity or misinterpretation therein.

(2) As far as possible, legal and financial advice should be taken in the drafting of contracts and before they are finally entered into.

(3) Standard forms of contracts should be adopted wherever possible, the terms to be subject to adequate prior scrutiny.

(4) The terms of a contract once entered into should not be materially varied without the previous consent of the competent financial authority.

(5) No contract involving an obligation or indefinite liability or any condition of an indefinite character should be entered into without the previous consent of the competent financial authority.

(6) Whenever practicable and advantageous, contracts should be placed only after tenders have been opened invited, and in cases where the lowest tender is not accepted, reasons should be recorded.

(7) In selecting the tender to be accepted the financial status of the contractor and firm tendering must be taken into consideration in addition to all other relevant factors.

(8) Even in cases where a formal written contract is not made, an order for supplies, etc., should be placed without at least a written agreement as to price.

(9) Provision must be made in contracts for safeguarding Government property entrusted to a contractor.

(10) The Auditor-General and under his direction, other audit authorities have power to examine contracts and to bring before the Public Accounts Committee any cases where expenditure involved has not been sought, or where high tenders have been accepted, or where other irregularities in procedure have come to light.

These principles will apply to all contracts involving expenditure from central revenues, and the Government-General is desired from that they will be strictly observed on behalf of Government. The existing detailed rules and regulations on the subject will be examined by the departments concerned with a view to bringing them into conformity, as far as possible, with these principles. In cases where no order or contract of contract exists relating to contracts existing at present, steps should be taken at once to supply the deficiency by preparing a contract which will give effect to the principles stated in this resolution.

Secretary to Government.

APPOINTMENT OF CLERKS IN GOVERNMENT OFFICES IN THE CITY OF MADRAS

The following candidates are declared by the Staff Selection Board to be eligible for appointment as clerks. The names of the candidates are arranged in alphabetical order under each community.

2. Heads of departments and offices in the City of Madras are requested to report from time to time to the Secretary of the Staff Selection Board all the particulars required in paragraphs 3, 4 and 7 of G.O. No. 493, Public, dated 18th May 1925, to enable him to maintain up to date the list of candidates requiring employment. A copy of the list corrected up to date can be obtained at any time by any head of department or office in the City on application to the Secretary.

3. Any candidate on the list who is offered an appointment by the head of a department or office is requested to reply to the offer promptly whether an answer is specially asked for or not. If he is not prepared to accept the offer he should so inform the office concerned immediately and give his reasons for his refusal. Delay in replying to offers of appointment causes great inconvenience and the name of any candidate who has taken no notice of an offer of appointment will be liable to be removed from the list.

4. Every candidate should indicate promptly to the Head of the office to his address. If he fails to do so, he will run the risk of his name being removed from the list.

137. Mr. Govindram Rajagopal, S.D.A. of Madras.

138. Mr. Rameshji Shantaji Shah, R. Com.,
S.D.A. of Bombay.

The Diploma makes the holder thereof eligible for the award of a permanent unrestricted auditor's certificate by the Local Government of the Province where the candidate desires to practice.

H. L. TANNAN,

Secretary, Accountancy Diploma Board.

Bombay, 21st August 1930.

MADRAS UNIVERSITY STUDENTS INFORMATION BUREAU.

President: The Vice-Chancellor of the University of Madras (for office).

Vice-President: The Director of Public Instruction (for office),
Secretary: Mr. S. T. Chandrasekhar, Professor of Hindi and
Head Master, Madras Christian College.

The main functions of the Bureau are—

(1) To furnish information and advice to Indians who contemplate going to England.

(2) To arrange in India to collect and other institutions, the educational, financial and moral information, collected by the Bureau in London.

(3) To communicate with the Central Bureau on behalf of students before they start, or on behalf of their parents when they are in England.

Students of the Madras Presidency and of Native States whose relatives are affiliated to the Madras University, who contemplate going to England, and the relatives and friends of those who are going or are already gone, are invited to correspond with Mr. S. T. Chandrasekhar, Secretary to the Madras Bureau, Madras Christian College, Madras, from whom all necessary information can be obtained.

Letters from Madras students to the Educational Adviser in London or to other Educational authorities in Great Britain are forwarded to the Madras Secretary for disposal and much delay will therefore be saved by direct correspondence with the latter.

There is a library attached to the Secretary's office, Madras Christian College, consisting of the year-books, syllabuses and extracts of the various educational institutions and universities in Great Britain and elsewhere and other cognate works. It is allowed the use of the library on all week days except Saturdays and holidays between 12 noon and 4 p.m.

S. T. CHANDRASEKHAR,

Secretary.

OXFORD SCHOOL CERTIFICATE EXAMINATION, 1930.

It is hereby notified that the Oxford School Certificate Examination will be held at Madras on or about the 16th July 1930.

1. The District Educational Officer, Madras District, Old College, Cathedral Post, is the local Secretary for the conduct of the examination.

2. The details of subjects for the examination, the time-table and the exceptions from the various examinations of the United Kingdom, which is made date holding in Oxford School Certificate examination, are on file in the general Regulations for 1930 for Oxford I. and II. Examinations, copies of which can be had from the local Secretary.

3. The ordinary fee for the School Certificate Examination is Rs. 31-4-6 (currently Rs. 21-10-0 plus 10/- and for Rs. 1-4-6) and maximum Rs. 35 (currently Rs. 25 plus 10/- for Rs. 7-4-6). Candidates who offer scientific subjects such as Physics, Chemistry, Botany, etc., and who have to take a practical examination will have to pay an additional fee of Rs. 2-4-0 for each subject in which a practical examination is held. The actual amount of the university fee will depend upon the number of candidates who enter for the examination. If more than twelve candidates appear for the examination, the maximum university fee of £1 will be proportionately reduced. The local fee and the fee for the practical examinations are variable.

4. Applications for the examination should be in the entry forms prescribed for the purpose.

5. The examination is open to all candidates whether male or female without limit of age, but candidates will be eligible for Honours in Education when eighteenth birthday falls before the first day of the month in which he or she is examined.

6. School certificates must be produced. A and B. Certificate A will certify that the holder has passed the examination and has been in attendance for at least three years at one or more 'approved' schools. Certificate B will certify the course of study at school, and will be issued on reference to the place of education and will be accepted at universities, colleges who have not attended an 'approved' school or who have not completed three years' residence.

7. Schools which are recognized under the Madras Manual Schools Act or the Code of Regulations for European Schools are eligible for 'approval'. The 'approval' of schools is a non-reciprocal effect. A candidate's course of study has not to be recorded in the 'A' certificate, for each of those or more separate years, the entry being merely to record of a statement of those subjects which he has taken regularly during his school life. The subjects taught in the 'approved' school need not therefore exactly correspond to those prescribed for the Oxford School Certificate Examination. The adequate degree, however, the addition of any subject which is not soundly abounded, e.g., drawing. Some of institutions who are desirous of having their institutions 'approved' for granting candidates for the Oxford School Certificate Examination should apply to the District Educational Officer, Madras, who is the local Secretary, through the District Educational Officer concerned, or the Inspector of European Schools, if the school is recognized under the Code of Regulations for European Schools.

8. Applications for entry forms should be made to the undersigned after the 15th January next.

9. Candidates should send in their entry forms duly filled up and signed accompanied by money order or cheque drawn in favour of the District Educational Officer, Madras, on the Imperial Bank of India, Madras, Rs. 48 plus the practical examination fee for the minor subjects which have a practical examination of Rs. 2-4-0 per subject, and the entry form together with the money order should reach the undersigned on or before 15th April 1930. If a sufficiently large number of candidates

the date of this certificate, the certificate will be deemed to be—

- (1) Disputed Vachana.
- (2) Palla Natakam.
- (3) Kalamkari Kottam.
- (4) Govt. Lalakshmanam.
- (5) Pethamam Kottam.

3. Persons obtaining these certificates should send with their applications a letter of introduction from a responsible Government officer.

MADRAS PROVINCIAL BANKING ENQUIRY COMMITTEE

NOTIFICATION.

The following questionnaire issued by the Madras Provincial Banking Enquiry Committee is published for general information. The Committee hopes to be able to distribute copies to all persons in the Presidency known to be interested in the enquiry. Should any gentleman feel that he has not received a copy, the Committee will be glad to send one to him on application. It is the Committee's earnest desire that the replies to the questionnaire should reach the Secretary on or before the 26th September 1929.

QUESTIONNAIRE

(The following questionnaire is published in order to assist witnesses in the preparation of their evidence. It is not to be regarded as exhaustive, nor is it desired that each witness should necessarily attempt to deal with all the questions asked):—

I.—*Agricultural credit and credit facilities for small industries.*

1. Describe the present system by which the agriculturist in your district or province obtains finance:

- (a) for expenses during cultivation,
- (b) for repair and permanent improvements, and
- (c) for other special needs, e.g., failure of monsoons, for land revenue, etc.

What are the terms of interest charged in your district or province in respect of advances, the period for which loans are taken, the nature of the security given and accepted (e.g., standing crops, etc.), and other conditions attaching to the grant of such loans?

Describe the part played in agricultural finance by Government, the Imperial Bank of India, the Joint Stock Banks, Co-operative Banks, the Indigenous Banks and Bankers, professional money-lenders, merchants and dealers, and other organisations giving credit (e.g., co-operatives trading in fertilisers, etc.).

Can you give an estimate of the total amount of capital required for the various purposes stated above for your district or province?

State defects, if any, in the present system and the means for the existence of such defects. Do you suggest any remedies?

Is there co-ordination among the various credit agencies including Government, and is there scope for improvement in that direction?

2. Describe the present method of marketing principal crops in your district or province.

What in your opinion are the possibilities of forming pools and of co-operative effort generally in marketing produce?

Describe the credit facilities required for the financing of produce during marketing and the facilities actually existing.

In regard to such facilities is there any special difference as between internal trade and foreign trade?

What is the part played by the different classes of banks and bankers and merchants and dealers during the process of marketing?

What are the existing facilities available to the public, including banks and bankers, for internal remittances?

State any defects in the existing system and any suggestions for improvement?

Describe the part played by negotiable instruments in the internal trade of the province.

Have you any suggestions to make for the more extensive use of bills (e.g., by reduction of duty on bills)?

What are the different classes of bills in current in your part of the country? What are the peculiarities of each? Please give simple wording.

Have you any suggestions for the amendment of the Negotiable Instruments Act by which the public and the bankers handling bills might be better protected or benefited?

Are bills emanating from your locality discounted in your local centre or are they sent to a provincial centre and discounted there, or are they held by indigenes, merchants or commission agents?

What different kinds of instruments of forwarding of goods and produce (e.g., railway receipts) and documents are employed for raising money during the process of marketing?

Are any difficulties experienced in the use of these instruments and have you any suggestions to make with a view to removing these difficulties?

What in your opinion are the possibilities of operating licensed warehouses in India other than the lines of the system which exists in the United States of America or otherwise?

Do you think there is any need for Government assistance in the matter?

3. In your district what is the value of land per acre for different kinds of crops?

What are the factors affecting such value? In your reply, please distinguish between

- (a) value of land in Government auctions for re-payment of revenue,
- (b) value of land in the event of sale by court decree,
- (c) value of land in purchase by private acquisition.

4. Is there any legal impediment to mortgage of land and agricultural holdings in your province? Are there any land mortgage banks or agricultural banks for your province or any other banks for the provision of long term credit?

State what you know of their method of work and of raising capital.

If no such institution exists in the province, suggest the lines on which such institutions could be established and worked to the advantage of the landholders and tenants of your province.

Do you suggest any measures for

(a) improvement in the record of rights and title of ownership so as to simplify references, and to avoid possibilities of disputes and counter-claims by parties other than those who are the owners of the Bank,

(b) simplification of the process of foreclosure and sale by the Mortgage Bank in the event of non-payment,

(c) reduction of costs of references to the record of rights and of registration of records and of the process at law so as to reduce the burden on the good constituents of the Bank in respect of charges incurred on account of defaulters?

Should the working capital of the proposed Mortgage Bank be derived largely from

(a) deposits,

(b) funds from central institutions, or

(c) debenture bonds?

Should debenture bonds carry any Government guarantee either for principal or interest or for both?

If so, what measures would you suggest to secure Government against unnecessary loss?

On what terms should agricultural Mortgage Banks raise moneys under each of the above-mentioned heads, with or without Government guarantee, and on what terms should they lend out money in so as to cover their expenses?

Please state any other suggestions for the adequate provision of long term credit against sound security.

5. In order to derive measures for the increase of credit facilities to the agricultural classes it is necessary to reach an estimate as accurate as possible of the existing indebtedness of these classes.

Do you know of any such estimate for a village or a district in your province, or for the whole province?

In what manner can such an estimate be obtained with reasonable accuracy?

In such an estimate please distinguish between—

(a) the amount of debt with land as security which is in the form of a registered mortgage,

(b) the amount of debt which is connected in the form of a judicial sale to disinvest the provisions of Acts such as the Deccan Agriculturists Relief Act,

(c) the amount of debt which is incurred against any other assets, such as the village house, ornaments, ploughs and other agricultural implements, crops and produce, or debt which is given on the general security of all the assets without a specific pledge.

Please state wherever possible the purposes for which the debt was incurred, such as

(a) the payment of earlier debts,

(b) marriage and other social occasions,

(c) business and other kinds of distress,

(d) payment of land revenue,

(e) growth of the debt by compound interest, interest not having been paid,

(f) needs and desires,

(g) improved agricultural implements,

(h) sinking of wells and agricultural improvements,

(i) education of children.

Please indicate also to whom this debt is largely due and whether the creditors are Government, Banks, Co-operative Societies, or indigenous bankers and professional money-lenders.

State what you know of the rates of interest charged, the methods used for collecting it and for enforcing the payment of the debt.

Do you think a large number of people who are efficient farmers, are being turned into tenants for a period, or tenants at will through the process of the enforcement of the old debts and the landed property passing on into the hands of creditors?

If this process is going on, does it take away from the actual cultivator the incentive to produce more and in an efficient and better manner?

6. Give some idea of the number of small subsidiary industries allied or supplemental to agriculture existing in your province, such as rice-milling, dairy farming, gum mulling, garden produce, cotton ginning, sugar refineries, hand spinning, etc.

Can you suggest methods by which any such industries could be encouraged and by which the producer might be enabled to get a better return for his produce?

Can you suggest any enterprises which may give employment to the farmer during seasons when he cannot make full use of his time on his farm and thus enable him to supplement his income and to raise his standard of living?

What would be the best method of securing working capital for such enterprises?

What financial machinery do you suggest for this purpose?

6-A. Give some idea of small industries other than those mentioned above of which you have personal knowledge, e.g., handloom, weaving, fishery, metal, etc., industries.

To what extent does your reply to question 6 above apply to these industries?

7. State what you know of the relations that exist between the Co-operative banks and the other banks in the country, namely, the Imperial Bank of India, the Joint Stock banks and the indigenous banks.

Describe any existing difficulties in the matter of finance in the case of co-operative societies both as regard to short and long-term capital.

Can you give an estimate of the amount of extra capital required for financing co-operative movement in your district or provinces?

Is there any competition in your district or provinces between the Co-operative banks and Joint Stock banks?

If so, to what extent and in what direction?

Have you any views regarding the possibility and desirability of granting financial concessions in order to stimulate the growth of the co-operative movement (e.g., by extension of special exemptions from income-tax to genuine co-operative societies, inclusion of disbursements made by Provincial Co-operative banks in the list of trustee societies, etc.)

II.—Indigenous banking.

(Note.—By indigenous banking is meant all banks and bankers other than the Imperial Bank of India, the Exchange banks, Joint Stock banks and Co-operative banks. It includes any individual or private firm receiving deposits and dealing in funds or lending money.)

1. State what you know of the functions of the indigenous bank or banker in your district or province, summarizing all kinds of business the bank or banker transacts?

2. How and to what extent does an indigenous bank or banker in your district or province assist in financing agriculture, trade and industry?

3. State what you know of the organization of the indigenous banking system in your district or province with regard to—

- (a) the amount of capital invested,
- (b) the volume of their business,
- (c) their expenses, and
- (d) the relations between one indigenous bank and another and between indigenous banks and other banks in the country, viz., the Imperial Bank of India, the Joint Stock banks and the Co-operative banks.

4. State what you know of the various forms of funds and other credit instruments used by the indigenous banks and bankers and the extent of their use. Give sample copies of any of the funds, promissory notes, deposit receipts, etc., used in your locality.

5. State what you know of the indigenous bankers' methods of granting loans and allowing cash credits and the terms and nature of these loans and cash credits.

6. What are the means by which the indigenous banks and bankers provide themselves with funds to meet their demands?

What are the rates of interest allowed on various kinds of deposits received by them?

7. What are the rates of interest offered in money or in kind which the agricultural community has to pay at present to the indigenous banker?

In what manner do you suggest these rates could be brought down by better organization?

Would the reduction of such rates confer great benefit on the agricultural community and increase its resources thereby leading either to an improvement in the standard of living or enabling them to spend more on agricultural improvements, better agricultural implements, etc.?

8. Is there a prejudice in your locality against the indigenous bankers?

Are these bankers sufficiently protected in law?

Is there any legal or other facility which can be extended to them?

Are the dealings of these class of bankers with their clients conducted on sound lines?

If not, indicate the existing defects, making suggestions for remedying them.

9. Would you suggest any means of making this class of bankers more accessible to the community?

Could you suggest any means by which the indigenous banking system in India could be improved and consolidated?

Do you recommend any special facilities to be given to this class for this purpose?

What do you think would be the attitude of the indigenous banking community towards the introduction of any measures for regulating their operations and for giving publicity to the same?

10. After making allowances for the legal expenses, management charges, losses through default and loans through foreclosures, can you give an idea of the net return to the indigenous banks and bankers on their capital?

11. Please state whether the indigenous banks and bankers are able to meet all demands for accommodation or whether they are obliged to refuse any amount of the unspeakable nature of the security offered or owing to inefficiency of their working capital?

12. How in your opinion should the indigenous banking system be linked with the central money market and provincial capitals?

Would you suggest the establishment of a branch of a Joint Stock Bank, or a branch of a Central Reserve Bank, or a local bank with local directors, in each district with which the indigenous banking system may be connected?

In what manner could such a bank inspire the confidence of the indigenous bankers and be able to utilize the local knowledge and experience of the latter?

How is the competition of such a bank with the indigenous bankers to be avoided?

12. Do you think there is a large excess of money in the districts in the hands of indigenous bankers which does not find employment throughout the year?

Do you think that owing to this excess any large amount of money is flowing to the provincial capital either for long or for short periods?

Do you think any kind of improvement in the organization of lending or borrowing can be made by which these funds instead of flowing to the provincial capitals would find remunerative employment in the districts and thereby benefit the districts?

III.—Investment habit and attraction of capital.

1. What are the existing banking facilities in the province?

Can you state the amount of additional capital, if any, required?

What are the means or institutions in existence for encouraging savings and investment habit?

Are the public provided with full facilities for the investment of their savings?

Can the existing facilities be improved in any way or extended in the smaller interior places?

Can you give any useful information in regard to the habits of the people of India to invest in silver and gold?

2. Are Postal Cash Certificates popular in your district or province and can any steps be taken to increase their popularity?

Do present interest rates of Cash Certificates require revision and do existing terms of issue in any way need change?

Do Savings Banks afford all possible facilities to the public?

What classes of population resort to such means of investment?

Can anything be done to attract other classes?

Have you anything to say regarding the alleged suggestion of Government with banking institutions and bankers in regard to deposits by their attractive rates on Postal Cash Certificates and Treasury Bills?

3. State the existing facilities for purchase and sale of Government securities afforded by Government, the Imperial Bank of India and other banks. Are you in favour of granting any special facilities to the small agriculturists and the small investors of the country to take up some form of Government security? If so, state what special facilities you recommend?

State the existing facilities for purchase and sale of securities other than Government securities, afforded by the various financial agencies.

Can you indicate clearly the habits of various groups of people in your district or province with reference to monies which come into their hands by sale of produce or through any other means? Where do they keep this money and for what purposes and in what manner, do they use it?

Do the farmers tend to follow agriculturists and on what terms? How do they invest surplus money in a prosperous year? Give any information you can regarding the amount, growth and distribution of capital among the indigenous population.

4. State what you know about the growth of cheque-habit.

What has been the effect of the abolition of stamp duty on cheques?

What classes of population use cheques? Have you any suggestions to make for further promoting the cheque-habit (e.g., payment of Government dividends and Bank employees above Rs. 100 by cheques)?

Have you any suggestions to make regarding the use of vernaculars in banking?

5. Do you support the view that the banking and investment habit in India is of very slow growth?

If so, to what causes do you attribute it?

Have you any suggestions to make regarding the various possible means of educating the people of the country to invest their savings in productive undertakings (e.g., propaganda by Government in regard to Government loans for capital expenditure, etc.)?

As far as you know, what has been the result of the opening of new branches in recent years by the Imperial Bank of India?

NOTIFICATION.

It is hereby notified for the information of the public that, with a view to have a settled law, the High Court, on the recommendation of the Madras Bar Council, has decided in directions the further amendment of first-grade pleaders after 31st January 1925. Applications for admission as first-grade pleaders must be forwarded through District Courts so as to reach the High Court on or before the 15th day of October 1925. In no circumstances will any application be received after that date.

It is in pursuance of all previous orders of the High Court, it is further notified that persons who have been qualified for admission as first-grade pleaders but who have not been hitherto enrolled as such, as a result of their being in Government Service in British India or Native States, or by reason of their carrying on any trade, profession or calling should now apply for admission on or before the said date. The certificates of such persons will not, however, be delivered to them; but will be kept retained in District Courts until they actually enrolled as pleaders.

I. M. FRASER,
Registrar.

High Court, Madras,
18th August 1925.
